## PROFILE

I am a passionate web developer with a strong foundation in React js .I have gained valuable experience in building responsive, user-friendly websites and web applications, handling both frontend and backend development with a focus on performance, scalability, and seamless user experiences.

## WORK EXPERIENCE

### Development Logics

Web Developer

Throughout my journey, I collaborated with teams on several real-world projects, enhancing my problem-solving abilities and improving my understanding of the full development lifecycle. I was able to tackle challenges such as optimizing web performance and integrating.

- Collaborated on real-world projects, focusing on both frontend and backend development
- Implemented responsive, user-friendly interfaces with React, enhancing overall user experience
- Optimized website performance, including solving issues related to site lagging and rendering 3D models.
- Gained experience in problem-solving and debugging complex issues related to web development

## PROJECT

### RealShop Website

RealShop is an e-commerce platform designed specifically to help small businesses and entrepreneurs establish an online presence. The website was built using the MERN stack (MongoDB, Express, React, Node.js), offering a robust and scalable solution for managing products, processing orders, and handling payments.
